

NOTICE FOR BOILER PERMIT REQUIREMENTS
PARKER STEAM BOILERS, HOT WATER BOILERS, HEATERS AND PRESSURE VESSELS
FOR INSTALLATIONS IN ALL LOCATIONS EXCEPT CALIFORNIA AND NEVADA

The purpose of the Notice is to inform the User, Installer and Purchaser of the importance of following all State and Local Code Regulations for installing and operating Boilers and Pressure Vessels.

STATE OR JURISDICTIONAL REQUIREMENTS

HIGH PRESSURE STEAM BOILERS

Most States or Jurisdictions require a field Inspection on High Pressure Steam Boilers by a Certified Boiler Inspector and a "Permit to Operate" issued by an Authorized Boiler Inspection Department or Agency. Some locations also require a competent and/or Licensed Boiler Operator on larger Boilers. Consult with the State or Jurisdiction for their requirements on these boilers.

LOW PRESSURE STEAM BOILERS, HOT WATER BOILERS, HEATERS AND PRESSURE VESSELS

Many States and Jurisdictions place these products under the requirement of the Local Building or Plumbing Inspection Department. Consult with the State or Jurisdiction for their requirements on these products.

OTHER REQUIREMENTS

Before installing the Boiler or Heater, check with the Local Building Jurisdiction to be certain that all Installation Permits are obtained and that the planned installation conditions conform to the required Codes. Many cities and Areas require that the installer hold a valid Contractor's License.

It is very important that all Boilers, Heaters and Pressure Vessels be installed in full compliance with the applicable Local, City or County Codes that come under the Jurisdiction of the Local Building or Plumbing Inspection Departments including:

1. Installation Permits and Inspection Approval.
2. Boiler Room Requirements.
3. Permits and Requirements on utilities including gas, electrical and Water Connections.
4. Boiler Venting, Air Quality, Drains and Plumbing Connections.

All Parker Boilers and Heaters are manufactured in accordance with the A.S.M.E. Boiler Code and registered with the National Board. The Boiler and Controls standardly comply with UL795, ASME CSD-1 and other recognized Standards. If there are any questions as to the acceptability of the Product as furnished, immediately contact the Manufacturer or Representative for clarification.

Before Installing the Boiler or Heater carefully read the Manufacturer's Installation Instructions furnished with the Product which cover the minimum standards for proper installation. Before placing the Boiler or Heater in service, all required Permits and Inspection Approvals must be obtained. The final check out and startup of the Product should be by competent knowledgeable personnel. The Operation and Maintenance Manual as furnished with the Boiler or Heater should be turned over to the Owner or person responsible for Operation and Maintenance

IT IS IMPORTANT THAT THIS NOTICE BE FORWARDED TO THE INSTALLER AND OWNER SO THAT ALL CODE REQUIREMENTS CAN BE FULLY INVESTIGATED AND COMPLIED WITH TO ELIMINATE EXPENSIVE CHANGES AND CODE VIOLATIONS. PLEASE CONTACT THE MANUFACTURER OR PARKER REPRESENTATIVE IF YOU HAVE ANY QUESTIONS.
